

# FALL PROTECTION STATIONS

## Fall Protection Storage and Supplies in the Field

Our fully customizable Fall Protection Station is a mobile solution for getting product to the craft. With space for a variety of harnesses, SRLs, and lanyards, you save time equipping workers where they are, eliminating unnecessary trips to the tool room. This weatherproof station can be locked and stored when not in use.

**Turnkey Design:** Ready to go when it hits the jobsite

**Convenient:** Transition from ground to at-height work on the spot

**Mobile:** Strategically place anywhere on site and move as the craft moves with pre-installed lifting points

**Fully Loaded:** Customized with the specific product you need and includes guides and tools

**Secured:** Custom design allows fall protection to be stored safely and properly, including upright harness hanging and breathable storage
