

TRAINING CREDITS PROGRAM

Earn back 1% on at-height purchases as P&I Training Credits

Name P&I Supply as your primary supplier of all at-height products and you'll be eligible for our Training Credits Program. For every \$100 that you spend on at-height product, you will earn \$1 in training credit.

Credits can be used towards purchasing a variety of training courses and supplies offered through P&I Supply. Several of these courses can take place at the jobsite; for more advanced training, credits can be used to cover course fees to attend a partnering safety manufacturer's facility.

We also provide training materials, literature, and promotional support to your jobsite, such as banners, flyers, training guides, and more!
