

Prepackaged Kits — Delivered Ready to Use

With P&I custom Product Kits, you have the ability to handpick products that fit your jobsite's unique needs. Choose the products and quantities, and leave the rest to us!

We fully assemble your kits and deliver as a single unit — complete with custom paperwork for simple receiving.

P&I Product Kits include Craft Kits, Mobile Stations, & Site Start-Up Kits. Learn how you can benefit from the quick turnaround and absolute customization of P&I Product Kits.

KIT BENEFITS

CUSTOMIZED: Order exactly what your site needs; no more, no less.

SHIP COMPLETE: Kits deliver to the site as one total package.

SIMPLE RECEIVING: Receive the kit as one line on the pack list.

TURNKEY: Preassembled and ready to go when they hit the jobsite.

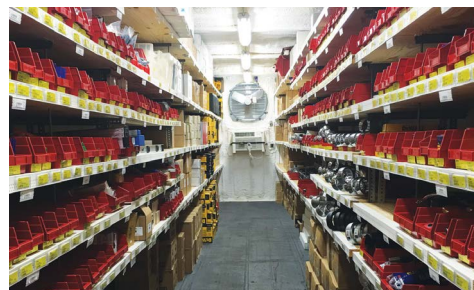

CRAFT KITS

- Custom, craft-specific contents with the product selected to meet craft needs
- Reduce trips to the tool room with a one-time issue
- Eliminate lead time delays for specialized product
- Multiple Craft Kits available at one time
- **Examples of Craft Kits: Welders, Pipefitters, Ironworkers**

MOBILE STATIONS

- Fully stocked with specified products and quantities
- Place anywhere on the jobsite to service craft where they work
- Customized containers and logos
- Lockable and weatherproof
- Includes instructions and manuals when required, or custom made posters and material guides
- **Examples of Mobile Stations: Tool Tether Stations, Spill Response Kits**

SITE START-UP KITS

- Insulated shipping containers, stocked and organized with a variety of products every craft will need at the beginning of your project, per your specification
- Secure door with manual and keypad lock system
- Preinstalled shelving and flip-up work counter
- Equipped with electricity for lighting and outlets, A/C and heating units
